

VIDEOMANAGER

ADVANCED MEDIA, DEVICE AND USER MANAGEMENT SOFTWARE

Secure, flexible and scalable - VideoManager's intuitive user interface simplifies the management of your body-worn camera deployment.

NEW FEATURES

| | |
|---|---|
| Self-service automatic account creation | Users can now create their own account with a URL and an email address; administrators can dictate with which roles these users are associated. Requires "Self-Service" licence. |
| VB400 Companion App | View and categorise footage within the field, then upload it to VideoManager 14.2 for review. Requires "Companion Application" licence. |
| Easy custom field configuration | Powerful custom fields for advanced organisation and categorisation of incidents and assets can now be edited entirely within VideoManager's intuitive user interface (UI). |

CONNECTIVITY

| | |
|-----------------------------------|--|
| VMS Integration | Compatible with Avigilon Control Center, Milestone XProtect and Genetec Security Center. |
| Site/Centre Capabilities | Can be enabled as a Central VideoManager, to which other instances of VideoManager ("sites") can be connected. |
| Live Streaming to a Cloud Service | Motorola Solutions body-worn cameras can stream directly to a cloud service of VideoManager while downloading footage to an on premises instance of VideoManager. |
| CommandCentral Vault integration | Connect VideoManager to CommandCentral Vault, for footage storage and correlation with other CommandCentral Suite applications. Requires "CommandCentral Vault" subscription. |

WORKFLOW CONTROL

| | |
|----------------------|---|
| Granular Permissions | Users can only access the parts of the VideoManager interface which are relevant to their workflow. |
| Granular Sharing | Incidents and videos can be automatically or manually shared between users and groups on VideoManager. Incidents can be shared with workers who are not on VideoManager, using time-sensitive links or exports. |
| Permissions Overview | Administrators can see the permissions associated with a user, and how they got those permissions. |
| Privilege Escalation | Users can temporarily elevate their privileges for a limited time, in order to perform certain actions on VideoManager. |
| Deletion Policies | Configure how long footage is kept on VideoManager before it is deleted. |

EVIDENCE PREPARATION

| | |
|---------------------------|--|
| Incident Creation | Group footage and other important media in an incident for ease of review. |
| Incident Collections | Put multiple incidents in an incident collection for sharing and management purposes. Requires "Incident Collection" licence. |
| Video and Media Redaction | Redact footage and images using effects like blurring, pixelation, and highlighting. Audio, text, and zoom redactions are also available. |
| Imports | Non-video media (PDFs, MP4s, JPGs), and videos which were not recorded on Motorola Solutions VB or VT series body-worn cameras can be imported to VideoManager and added to incidents. |

SCALABILITY

| | |
|--------------------|---|
| Incident Bulk Edit | Large numbers of incidents can be instantaneously deleted and added to incident collections. |
| Device Bulk Edit | Large numbers of devices can be instantaneously assigned and upgraded. |
| User Groups | Put multiple users in a group for sharing and management purposes. Groups can be supervised by individual users, or other groups. |
| Reports Creation | Download reports detailing various aspects of VideoManager activity e.g. when devices were docked and undocked. |
| Live Statistics | View real-time statistics with information about how VideoManager is being used. |

SECURITY

| | |
|---------------------------|--|
| Comprehensive Audit Trail | A comprehensive audit log of every action performed in the system is created. Users can create and download audit logs to view these actions if necessary. |
| Access Control Keys | Without a device's access control key, undownloaded footage on a device is inaccessible. |
| File Space Encryption | Footage, report and export files are automatically encrypted for extra security. |

TECHNICAL SPECIFICATIONS
